Team Size: 3

Key Skills: ReactJS NodeJS MongoDB css HTML Express

Project Link: https://github.com/Darshan-Sojitra/Billing-System-Frontend

We developed an enterprise app to help stores and restaurants with billing and order management. The app allows users to take orders, generate bills, and update sales data in real-time, enabling them to track monthly and total sales efficiently. I was responsible for designing the app's interface, implementing key features using Node.js and Express for the backend, and integrating MongoDB for the database. We successfully launched the app, improving billing efficiency and receiving positive user feedback.
