Project Development Questionnaire

- Details to be added in master table of Supervisor, Investigator, Medical Officer, and Data Entry Personnel (e.g., name, contact number).
- Information on Insurance Company, case rates, and case types.
- List of 10-15 questions for questionnaire (10 / 15 for development).
- List of fields to be filled by the supervisor when adding case details (e.g. case number, insurance company) as per the document uploaded by the HOD.
- Reporting requirements – details on final report generation, format, and specifications.
- API details for SATA – including data input (case details) and output (final report).

Upon receiving the required inputs, we will promptly initiate the development process.

Note: These questions are to initiate the development of the app. Additional questions may arise and will be addressed as development progresses.
